

Decorating Guidelines

Reception

1. All rented items and decorations need to be picked up by 10am the following morning.
2. Items not allowed in the barn:
 - a. ABSOLUTELY NO duct (or other abrasive) tape, nails, tacks, screws or any device that may penetrate the beams can be used. You may utilize zip ties, fishing line, or scotch tape.
 - b. No flames are allowed as decorations anywhere on the property with the exception of a candle lighting ceremony if desired.
 - c. Bubbles (allowed outside), helium balloons, silly string, glow sticks or confetti of any kind
 - d. Centerpieces may not include items such as: confetti, loose glitter, shards of glass, or sand on the tables, flame of any kind (LED candles can be used)
3. Should you choose any additional decoration above and beyond the standard decorations in the Barn, they must be approved by Bull Meadow staff. Table linens and napkins are provided by the Barn.
4. The Barn utilizes 60" round guest tables, fruitwood chivari chairs with an ivory cushion inside, and padded white resin chairs for the outdoor ceremonies. Guest tables seat up to 10 guests, and as few as 5 guests. Example: with our max capacity of 180 guests, and max of 20 guest tables, this would place 9 guests per table.
5. Any and ALL personal items brought by the wedding party MUST be TAKEN HOME the NIGHT of the EVENT, unless otherwise specified. This includes but is not limited to all bags, purses, food, gifts, etc. Items left with no significant monetary value will be assumed to be items you do not want and may be thrown away.
6. Any grassy areas are off limits to guests. Corn hole/other yard games can be set up out on the patio.
7. Fire pits are included in the price. If these are misused in any way (objects in the fire, sitting on the firepit, any other unsafe behavior) we will shut them off.

Ceremony Pavilion

1. In order to preserve a beautiful ceremony area for all our couples and guests, the following items are not allowed in the ceremony area: rice, birdseed, or blanketing of the procession aisle with fake leaves or flower petals -real or fake (flower girls will be allowed to sprinkle flowers). If you have questions at all, please ask first rather than purchasing first.
2. Potted plants or other such potted items are allowed around the edges of the pavilion or walkway for decoration provided they are stand alone and have a good heavy base such that wind gusts will not knock them over.
3. If you choose, the pavilion may be decorated by your florist on the day of the event, however everything adorning the pavilion must be wrapped, tied or hung. Tape, adhesive stickers, pins, nails or any other fastener that would create holes or other damage in the wood will not be allowed.
4. Anything you might like sitting on the ground near the ceremony area should be have a nice heavy base such that it/they will not fall over with the wind.
5. Shepherd's hooks may be used at the ceremony area. It is the responsibility of the couple, wedding party, or the florist/decorator to set these up. Hanging plants/items can be placed on the backs of the ceremony chairs along the isle as well.
6. Two whiskey barrels are set out at the ceremony area and you may set items/flowers/decorations on top of them. Tacks, pins and nails cannot be used on the barrels.
7. Rows of ceremony chairs typically have 16 chairs (8 chairs on each side of the aisle). Micro-weddings typically have rows of 10 chairs (5 chairs on each side of the aisle). Indoor ceremonies have rows of 10 chairs (5 chairs on each side of the aisle), and a maximum of 130 chairs (remaining guests sit at tables).
8. Electrical outlets are available on both back posts of the pavilion.
9. Length of the ceremony isle: ~75ft long by ~5ft wide. See below for dimensions and photos of the pavilion:
