Tent Details

Size: 30 feet x 30 feet x 15 feet tall at the peak.

Availability: April-November

Note: Installation and takedown dates in are tentative year-to-year. Once it has been installed, it remains in place until it is taken down at the end of the season.

Placement: The tent will be installed on the left side of the patio as shown below.

Optional Accessories:

-Sidewalls: white sidewalls with panorama windows for all sides. Sidewalls will be folded to create an entrance from the barn and to the rest of the patio.

-Heater: 80,000 BTU heater with wired thermostat. Heater is not useable without sidewalls.
